*IP Telephony System*

*Collection Software*

## Multiply Your Collections...

### Make 2½ times more collection calls per day.

Introducing CallThru™, a new breed of call center technology. Using the latest in software managed voice exchange technology, CallThru can more than double your right-party connections for your entire agency. CallThru is a complete replacement of your old outdated phone system.

CallThru is a telephone system completely integrated with Debtmaster, creating one system for managing end-to-end communications, documentation, tracking and accounting for your entire organization.

Using the latest in IP Telephony technology; CallThru is a total replacement of your old PBX, Predictive Dialer, IVR, and Call Recording systems. Let CallThru and Debtmaster drive your collections to new heights.
